Johannes Kepler (1571-1630) is one of the most significant representatives of the so-called Scientific Revolution of the 16 th and 17 th centuries. Although he received only the basic training of a "magister" and was professionally oriented towards theology at the beginning of his career, he rapidly became known for his mathematical skills and theoretical creativity.

Even though I disagree with this particular planetary conjunction as an explanation for the Star of Bethlehem, the planetarium show does provide a good introduction to the Star of Bethlehem discussion. The show also gives an introduction to the sort of astrological significance the wise men ("Magi") in the Matthew Gospel would have placed on planetary conjunctions.
