Both Plato and the ancient orator Isocrates suggest that Pythagoras was an advocate for a new way of life. The school, or organization, that Pythagoras established at Croton operated much like a monastery, and its members shared their assets in much the same way. They were also committed to one another to the exclusion of outsiders. One Pythagorean saying was *koinà tà phílōn* which meant ...

The ancient Greeks thought of philosophy as an art, and philosophers as teachers of the art of asking questions. But some things in ancient Greece could not be questioned. It was against the law to do so. But that did not stop one famous philosopher from asking these questions anyway. He found himself in a lot of trouble because he ignored the law. His name was Socrates. Two other famous Greek ...
