The Mark 18 was built in competition with the Bureau of Ordnance electric torpedoes, which had been in development at the Naval Torpedo Station (NTS), Newport, Rhode Island, since the 1920s, in particular the Mark 20, originated in 1941 in collaboration with General Electric and Electric Storage Battery Company.. In 1942, several German G7e electric torpedoes ran ashore, leading CNO, Admiral ...

The following is a list of locomotives produced by GE Transportation Systems before its acquisition and takeover by Wabtec. All were/are built at Fort Worth, Texas or Erie, Pennsylvania, in the United States. Most (except the electrics, the switchers, the AC6000CW, and the Evolution series) are powered by various versions of GE's own FDL diesel prime mover, based on a Cooper Bessemer design and ...
